PROFESSIONAL EXPERIENCE

Sales Associate

Sep 2023 - Dec 2023

Best Buy - Toronto, ON

- Exceeded sales goals through tailored product recommendations based on customer needs - Managed transactions and ensured accuracy with cash handling protocols
- Communicated tech solutions clearly to diverse clientele

Freelance Video Editor

May 2022 - Jan 2023

REMOTE

- Delivered engaging edits using footage from multiple sources
- Ensured timely delivery for client satisfaction across platforms
- Used Filmora & Canva to develop polished and creative outputs

PROJECTS

1. Desktop File Organizer (Python, OS, shutil)

- Created a cross-platform script to categorize and auto-organize desktop files
- Improved productivity through automation of cluttered environments

2. Bill Splitter Application (Java)

- Developed a command-line based bill splitting application using Java, applying object-oriented principles (classes for Person, Expense, and BillSplitter).
- Enabled users to add participants and shared expenses, dynamically calculating each individual's balance based on contributions and equal share logic.
